

Coastal Process offers our customers the most technologically advanced solutions for the movement and treatment of water and wastewater. As a partner in your success we supply a broad range of the highest quality equipment with proven performance levels designed to keep your project running at maximum efficiency.

INDUSTRIAL PRODUCTS LINE SHEET

American Marsh

Vertical, Horizontal Split Case, Gear, Self Priming Submersible, Grinder, Well, ANSI, Inline Pumps

Aqua-Aerobic Systems, Inc.

Biological Treatment, Aeration and Mixing, Filtration

Blue Water Technologies Inc.

Primary Wastewater Treatment, Filtration

Boerger

Rotary Lobe Pumps

Cameron

Oil Free Centrifugal Compressors

HSI Blowers

Oil Free Multi Stage Centrifugal Blowers, Oil Free High Speed Turbo Blowers

Hydro-Dyne

Screening Equipment

IPEC

Screening Equipment, Sludge Thickener

ISS

Reverse Osmosis, Demin, Polishing Systems

Komax

Inline Static Mixers, Sludge Heaters

Landia

Severe Duty Chopper Pumps & Submersible Mixer

MultiTrode

Pump Station Control, SCADA, Level Sensor

Parker Airtek

Compressed Air Dryers, Controls

Prime Solutions

Sludge Dewatering

RP Adams

Pipeline Aftercoolers, Custom Engineered Strainers

Sharpe Mixers

Top, Side Entry, Portable & Custom Engineered Agitators/Mixers

Singer Valve

Water Control Valves

Spanns Babcock

Screening Equipment, Screw Pumps, Aeration

SSi

Fine & Coarse Bubble Diffuser System

TruFlo

API Pumps

WesTech Engineering

Water & Wastewater Process Equipment
